

TRUSTED BY THE TOUGHEST

COMMERCIAL

BORN TO PERFORM

With a legacy and passion to deliver mission-critical durability, Wheeled Coach ambulances are born to perform under the most demanding conditions—and built to be as unbreakable as the spirit of those we serve.

That's why every day, commercial EMS fleets around the country put their trust in Wheeled Coach. They count on our reliable, hard-working ambulances to meet and exceed the rigors of service they encounter, keeping responders and occupants safe. We stand with you every day, ready to serve. It's why we are truly ***Trusted by the Toughest.***

TRUSTED BY THE TOUGHEST

TYPE I AMBULANCES

WORK-HORSE TOUGH & READY TO SERVE YOU

When every mission is critical, you need reliable, tough products that perform and endure. Type I ambulances are engineered with leading technologies

and manufacturing processes to the highest levels of precision. It's what makes it a rock-solid ambulance your fleet simply can't do without.

Type I Model Specifications

	5500	1170	170"	95"
Ford F-Series	F350	1148	148"	90"
	F350	1153	153"	95"
	F450	1153	153"	95"
	F450	1170	170"	95"
	F550	1170	170"	95"

Model 1170

TYPE II AMBULANCES

SAFETY FIRST, ALWAYS

Saving lives is challenging, sometimes dangerous, work. You need a partner in your corner who safeguards your battle-tested responders as they navigate congested city streets and rural back roads. Wheeled Coach is here for you with industry-leading safety features like our Per4Max® Controlled Decelerator

4-point ambulance restraint system that provides controlled deceleration in the event of a crash. Even more peace of mind comes with our limited lifetime electrical warranty—we have your back during those rare moments of downtime. With the Type II, it's safety first, always.

Type II Model Specifications

	Chassis	Model	Headroom	Wheelbase
Chevy	Express	T2 Van	66"	155"
Ford	Transit	T2 350 High Roof	75"	148"
	Transit	T2 250 Mid Roof	66"	148"
Mercedes	Sprinter	T2 M2CA46 High Roof	74"	144"

TYPE III AMBULANCES

PERFORMANCE UNDER PRESSURE

Wheeled Coach ambulances deliver the ultimate in durability, which comes from years of real-world experience operating in the harshest conditions. We have built and delivered more than 50,000 ambulances and rescue vehicles around the world, which means you're more likely to see a Wheeled Coach

ambulance on the road today than any other brand. The Type III is a reliable emergency vehicle that's constructed with a fully extruded body to protect responders and their patients. It's one of the many ways Wheeled Coach ambulances perform under pressure day in and day out.

Type III Model Specifications

	Chassis	Model	Length	Width

WHEELED COACH INNOVATIONS

A LEGACY THAT CONTINUES TO LEAD

Wheeled Coach focuses on developing product innovations that protect patients and EMS providers, and delivers exceptional value on your fleet investment.

Cool-Bar™

This patented external condenser is mounted on the front of the body for easy access, greatly improving condensing capability and BTU capacity with 50% greater air flow. It also enables multiple emergency vehicle lighting options for maximum visibility and flexibility.

ToughCoat™ Paint Process

Our unique nine-step process employs precision application standards centered around a revolutionary high-tech primer with adhesion and anti-corrosive properties never before achieved for a super tough, long-lasting finish.

Per4Max® Controlled Decelerator

This 4-point restraint system features technology to control deceleration in the event of a crash with a one-buckle design for easy on and quick egress.

TrueForm™ Wall Construction

This precision assembly process incorporates our StraightLine™ Laser-guided Fixture Alignment to create accurate, square, repeatable frames that fit every time.

AntiCor™ Protection System

Layer upon layer of anti-corrosion features, like our one-piece aluminum skins, DuraSeam door system, engineered pre-paint pre-punched holes, SermaGard® ceramic coated bolts, nine-step ToughCoat™ Paint Process and more, that together stand up stronger to the most demanding conditions.

Safeguard Box Frame™

Using advanced processes that ensure the highest quality, repeatable results and precision, we build a highly reinforced, but ultra-light roll cage superstructure with strategically positioned metal bars, creating one of the strongest, safest and most durable ambulance bodies around.
