

TRANSIT AMBULANCES

Crew-tailored Emergency Vehicles

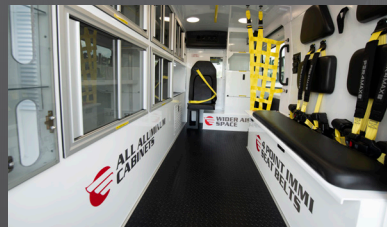

With a legacy and passion to deliver mission-critical durability, Wheeled Coach ambulances are born to perform under the most demanding conditions—and built to be as unbreakable as the spirit of those we serve. That's why they are truly ***Trusted by the Toughest.***

Our Transit ambulances are ideal for commercial customers and those who transfer patients without requiring much gear. They are more economical to purchase, operate and maintain, and are designed with crews in mind—offering more seat travel for greater comfort. Our electrical switch panel is on the curb side for easier access from the side bench seat. There is also enough room to accommodate a large cot. Efficiently and safely transport your patients with the Wheeled Coach Transit ambulance.
